in Policymaking®

# A Leadership Training Program

For parents of school age children with  
developmental disabilities and adults  
with developmental disabilities.

The Partners in Policymaking program is about achieving greater:

**Independence • Productivity • Self-Determination • Integration • Inclusion**

**Class 1**

February 2018 - October 2018

**“Never doubt that  
a small group  
of thoughtful,  
committed citizens  
can change the world;  
indeed, it’s the only  
thing that ever has.”  
- Margaret Mead**

**PARTNERS IN POLICYMAKING®** is a leadership training program designed for parents of school age children with developmental disabilities and adults with disabilities. The Partners program was created by the Minnesota Governor’s Council on Developmental Disabilities more than 30 years ago, and has since been offered nationally and internationally. Partnership teaches leadership skills, and the process of developing positive partnerships with elected officials and other policymakers who make decisions about the services that you and your family use. Partners is accessible, informative and empowering. The graduates of Partners often become members of boards, councils, task forces and advisory committees; some run for elected office.

**PARTNERS is about systems change -** creating, working towards, and achieving a vision of shared values about people with disabilities. It is based on the belief that the most effective and enduring public policy decisions are made by the people who need and use services in partnership with elected officials and other policymakers. It is about becoming confident in oneself, competent in the knowledge and information received, and comfortable in sharing life experiences and expertise one brings to the program.

**Participation in PARTNERS requires:**

- A commitment to attend all eight weekend sessions
- An interest in learning and practicing new skills in a comfortable and safe environment
- A desire to build and strengthen a network of people from diverse cultural backgrounds and life experiences
- A willingness to learn from national and state experts who share our vision and values

## **Federal Definition of a Person with a Developmental Disability:**

The term “developmental disability” is defined in the Developmental Disabilities Assistance and Bill of Rights Act as a severe, chronic disability of an individual from birth that:

1. Is attributable to a mental or physical impairment or a combination of mental and physical impairments;
2. Is manifested before the individual attains age 22;
3. Is likely to continue indefinitely;
4. Results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and
5. Reflects the individual’s need for a combination and sequence of special, interdisciplinary, or generic services, individual supports or other forms of assistance that are of a lifelong or extended duration and are individually planned and coordinated;
6. When applied to infants and young children, individuals from birth to age nine, inclusive, with a substantial developmental delay or specific congenital or acquired conditions may be considered to have a developmental disability if the individual, without services and supports, has a high probability of meeting three or more of those criteria later in life.
