

New Trier Township Food Pantry WISH LIST

The items that you donate will stock the shelves that help people in need in New Trier Township. The people who come to the pantry often have children. Donating healthy food items that most families buy to feed children and teens will help our pantry greatly. Many others are single person households. It is better to donate an item in a size that can feed a smaller family or individuals rather than super-sized items.

The list below includes some of the most needed items, as well as other recommended items. Choose products that are in boxes, cans, or plastic bottles and that do not have to be refrigerated. We prefer not to have product in glass. All items should be in their original, unopened packaging, recently purchased and in good condition.
